THE CARRIAGE

History

“The trip was delayed because the coachmen were fixing the front wheel of the carriage.

The delay made passengers increasingly irritable.

The thin passenger paced back and forth, while the passenger soothed the boy who cried.

When the carriage was ready, the coachmen hurried.

The skinny passenger calmed down and even smiled at the boy who was crying, who now, all happy, was doing creak with his heels, the carriage seat springs.

The carriage started the horse-drawn journey while the passenger smiled at the passenger skinny.

But suddenly, the horses stumbled, the benches tilted, the doors opened and horses were startled, forcing the carriage to stop to fix the seat springs and the wheel that was released again from the carriage ”.
